Note:

- Fund of Funds & Feeder Funds : The annual management fee excludes the management fee of the underlying investments.
- A complete list of TER's is available on www.primeinvestments.co.za. TER (Total Expense Ratio) : A measure that can be used by investors and advisors to determine how much of a Financial Product's underlying assets are relinquished as payment for services rendered in the administration of the Financial Product. This is expressed as a percentage of the daily NAV of the Financial Product calculated over a period of three years on an annualised basis. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's.
- A complete list of TC's is available on www.primeinvestments.co.za. TC (Transaction Cost) : A measure that can be used by investors and advisors to determine the costs incurred in buying and selling the underlying assets of the Financial Product. This is expressed as a percentage of the daily NAV of the Financial Product calculated over a period of three years on an annualised basis.
